Norms Followed for Fixing School Fees

The school fees is fixed after considering several factors, along with the SMC/PTA such as the normal capacity of parents to pay, the guidelines provided by the state government, the average pay scales offered in private school, the need to balance income and expense of the school on an annual basis.

The funds received by school in lieu of fees are solely utilized for the purpose of salaries of staff, development of infrastructure, facilities of school and on activities beneficial for the students.
